To: NIS Staffing Services

David,

I just wanted to thank you for the accommodations that you made while I was on maternity leave and having Eric staff here while I was out. It made my life less stressful. I felt at ease knowing that I would have somebody dependable to do my job for me. I didn't get a single complaint from our reading radiologist and he is very particular about his studies. The service that Eric provided Fairmont enabled our Nuclear Medicine Department to flow very smoothly.

I also wanted to thank you for staffing me within a 1 day notice for me to stay home with my sick child. I was for sure that it wouldn't be possible with such a late notice, but didn't think that it would hurt to ask. In the past, I didn't have a service that was able to provide staffing the next day, so I would have to call and cancel my patients, which only happened on two occasions. Thank you so much for your hard work rearranging your tech schedule to have Eric staff here. I really appreciate it.

Sincerely,

Julie N Miller RT(N), CNMT  
Nuclear Medicine Technologist  
Fairmont Diagnostic Center
